## **When It's Time To Sell**

*We have been selling houses for investor clients for many years. We are a member of Georgia MLS. We are proficient at selling homes of all types whether it is a straight sale or something creative like lease purchase, seller seconds, and other forms of owner financing. We can also help you with tax deferred exchanges. Since we know the property already, we can get it on the market before the tenant moves out and get a head start on the marketing.*

*For more information, email
